

Prospectus for Parish Facebook page

I have lived and worked in Guernsey for 52 years, educated at Elizabeth College, and have a good grasp of how the Parish of St Peter Port functions and operates having been a Douzenier previously for two years recently.

Attending University in Scotland and obtaining a Bachelor of the Arts Degree in Philosophy allowed me to return to my studies later in life and I am currently an Associate Member of the International Compliance Association and a member of the Guernsey Association of Compliance Officers.

All my immediate family is here in Guernsey, of whom our ancestors fought in the Second World War and I stand for those who fell fighting fascism and respect the Royal British Legion and the Royal Guernsey Light Infantry association. We have a wonderful family and a house in another parish, but I lived in St Peter Port for 7 years.

Until eleven years ago I used to be a self employed gardener for the previous 20 years, facing adversity and fought back with the help of my friends and family, always striving to achieve my best and putting “ends” above “means”, despite my disability.

Even though I have a “hidden disability” I strongly stand for people less fortunate than myself and have fought for the rights of those with disabilities and who may be struggling as I have struggled in the past.

Working in Guernsey’s Finance industry since 2015 I have lived in the beautiful parish of St Peter Port since 2017.

Successfully elected to St Peter Port Douzaine in 2022 I resigned in 2024 to study for my Anti-Money Laundering Diploma. I was an elected member of the sadly now defunct Baubigny Schools Committee between 2024 and 2025, attending many meetings and putting children’s education first above ideological aims.

As an elected Douzenier I would like to actively promote parish issues at meetings, and perform the hedges, streams and quarry inspections, and

also help organise and run the Parish Liberation Day celebrations. If re elected I hope to get onboard again with these duties, amongst others.

I am passionate about Guernsey and do much volunteering and charity work in my spare time whilst also working part time positions; they say “If you want something done, ask a busy man”. I would humbly suggest this to be true in my case. My personality traits would be passionate, confident, hard working, honest, driven and intellectual.

I helped out with the successful Island Games in 2023, I was part of the organising committee and also with the hands on marshalling at various events. This is an example of how I have given up my personal time to further the interests of the Island as a whole, which was also a great event for St Peter Port which hosted some of the major occasions.

If I am re elected I have the tenacity, diligence, stamina, drive, abilities, good ethics, morals integrity and analytical and reasoning skills to offer the Parish of St Peter Port, because I have already laid the foundation in my previous term as an elected Douzenier.

Empathetic, a careful and active listener, honest to a fault and genuinely caring, I am not afraid of hard or “dirty” work.

For example, I would like to create a friendly, open community for all, no matter what their background or heritage. I would be happy and honoured to receive your vote on the 19th November, and I would serve the parish from the bottom of my heart, to help create a flourishing, prosperous, successful, safe, clean, empowering, friendly place to live, work and do business.

I would like to see locals living in a safe and happy place, not overpopulated. I stand for local culture and for the trees, birds and flowers, fresh air and safe walks, for example the parish saving electricity by turning off lights during the day time. I will act on behalf of the people, for the parish, for locals, for disability, for good housing, for nice streets, for safety, for rules and regulations, for the laws, to create a clean safe and prosperous environment for all. We need more street cleaners and less

homeless people. I would be hands on if elected and full on the case as and when needed.

If elected I would help empower people to take control of their own lives and direct their own futures, to be kind to one another, and not to be divided.

I hope you will be so kind as to consider giving me your vote on the 19th November.
